

Ethics in Research

The term itself is suggestive that Research Ethics provide guidelines for the responsible conduct of research. In addition, it also enlightens and evaluates research to ensure high ethical standards. This may include in honestly reporting data results, methods, procedures and publication status. The primary aim of all research should be to educate, mentor and advise the learners. The researcher should strive to promote the overall social wellbeing. All the above principles of research are taken care of in our institution. Plagiarism which is the appropriation of another person's research ideas, procedures, results, recommendations without appropriate acknowledgement is checked at all appropriate levels.

Research ethics does not only promote the unbiased and honest ideas, concepts and findings but it also reflects the honesty of purpose.

Research is crucial for the social, scientific and overall development of a country. It is an epitome of a nation's honest intentions for the overall good of its people or for the global population. We have examples of countries with very high ethical research standards like Germany, Japan, Sweden, Finland, U.S. and many more. The sanctity of the research purpose is maintained and calculated from time to time, resources are mobilized and high ethical standards are maintained.

Remember, ethics in research, honesty of purpose are not only reflective of the current research projects in hand but they also reflect the honest and true social and scientific temper of a country.

Code of Ethics

Promotion of Research

- 1) The institution recognizes the value of research in academics and keeping this objective in mind faculty members are motivated to take part in Seminars / Workshops from time to time.
- 2) The College ensures that significant number of reference books, text books and journals are added from time to time to cater to the needs of the students as well as the faculty members.
- 3) Students of B.M.S. and M.Com are enrolled in Department of Life Long Learning & Extension (DLLE - University of Mumbai) which is a research based activity based on the survey and data analysis. This programme was started in the year 2017 to promote and it inculcates research values amongst the students.
- 4) The College constantly motivates the faculty members to take up minor / major research projects.
- 5) We have a tie up with R.A. Poddar College, Matunga, Mumbai – 400 019 to get assistance in our Research activities and prevention of malpractices in research.
- 6) Research is the foundation of all academic excellence in Bharat Education Society's Sant Gadge Maharaj College of Commerce & Economics and the institution has repeatedly proved its commitments to up-hold the high moral standards and ethical acumen to prevent any malpractices in research.
- 7) We recommend and practice the correct formats for citation and referencing as prescribed.
- 8) Institution asks the faculty referencing as prescribed the articles and research papers to be checked with the available software Online.
- 9) The institution has given guidelines to research scholars, faculty members to get their research papers/articles duly checked with available software online for plagiarism check.
